The text indicates that the puzzle is a diagramless, with a grid size of $13 \times 13$ (the size of the lowest grid of windows at the Carpenter Center). After solving, the puzzle instructs to find a flyer. This flyer lists number of years in the format $19 \mathbf{x x}$, the numbers in bold being $03,04,05,13,19$, $27,35,41,42,45$, and 47. The letters at these clue numbers, in order, spell out KRIS KRINGLE.
