

Going By the Wayside: Solution

1 ORES <u>+ ORES</u> SCORE	2 HAG <u>+ HAH</u> AGH	3 TAT <u>+ TAR</u> LALA	4 ODD <u>- TO</u> TO	7 ITS <u>+ ITS</u> SOOT
----------------------------------	------------------------------	-------------------------------	----------------------------	-------------------------------

12 PEED <u>+ ACED</u> PLACE	10 ATE <u>x PA</u> ATE <u>+ PAT</u> PETE	13 ING <u>x ON</u> ONTO <u>+ ING</u> NOGO	14 OWN <u>x AN</u> EON <u>+ NET</u> ANON	5 APT <u>x AT</u> LESS <u>+ YES</u> PLOTS
-----------------------------------	--	---	--	---

6 TRAMS <u>x RE</u> SMART <u>+ TRAMS</u> COMSAT	11 EWE <u>+ DELL</u> WOODS	8 GAG <u>+ AGO</u> SEES	9 SAP <u>+ EAT</u> PANE
---	----------------------------------	-------------------------------	-------------------------------

6 5 8 6 5 6 7 7 6 5 7 9 4 8

For each problem, a number is represented by a letter, the numerical arithmetic is sound (ex: if A=3, and Q=5, and F=8, then A+Q=F)

Each problem has its own numbers, and when you find the numerical answer, one letter per problem will have a value that matches the secret word

Ores + Ores = score

$$8421 + 8421 = 1\bar{6}842$$

$$\text{Hag} + \text{hah} = \underline{a}gh$$

$$250 + 252 = \underline{5}02$$

$$\text{Tat} + \text{tar} = \text{lala}$$

$$757 + 75\bar{8} = 1515$$

$$\text{Odd} - \text{to} = \text{to}$$

$$122 - \underline{6}1 = 61$$

$$\text{Apt} * \text{at} = \underline{l}ess + \text{yes} = \text{plots}$$

$$318 * 38 = 2\bar{5}44 + 954 = 12084$$

$$\text{Trams} * \text{re} = \text{smart} + \text{trams} = \text{coms}\underline{a}t$$

$$21978 * 14 = 87912 + 21978 + 307\bar{6}92$$

$$\underline{l}ts + \text{its} = \text{soot}$$

$$\underline{7}21 + 721 = 1442$$

$$\text{Gag} + \underline{a}go = \text{sees}$$

$$272 + \underline{7}29 = 1001$$

$$\text{Sap} + \text{eat} = \text{pane}$$

$$831 + 534 = 13\bar{6}5$$

$$\text{Ate} * \text{pa} = \text{ate} + \underline{p}at = \text{pete}$$

$$102 * 51 = 102 + \underline{5}10 = 5202$$

$$\text{Ewe} + \text{del}\underline{l} = \text{woods}$$

$$515 + 957\bar{7} = 10092$$

$$\text{Peed} + \underline{a}ced = \text{place}$$

$$1663 + \underline{9}263 = 10926$$

$$\text{Ing} * \text{on} = \text{onto} + \underline{i}ng = \text{nogo}$$

$$243 * 17 = 1701 + \underline{2}43 = 4131$$

$$\text{Own} * \text{an} = \underline{e}on + \text{net} = \text{anon}$$

$$736 * 56 = \underline{8}16 + 680 = 7616$$
