

# FINAL 919: MIDDLE EAST

Middle East is one of the premiere music venues in the Boston area. Playing the Middle East is a big deal for an up-and-coming rock band. Even if you're only playing the Upstairs, if you can land a gig here, you've done pretty well for yourselves.

To get this gig, you'll need to really impress. Find the "booking manager" and preview thirteen of your songs with their titles and first lines. I think that may be enough to get you in the door, although you might be asked to give a little extra to seal the deal...

**\*\* Be at the Middle East by 5:30pm for the wrap-up party, no matter how many puzzles you have solved by then! \*\***
