

WE'RE THINKING OF CHANGING IT

Changing your band's name is always something you want to be thinking about. All the biggest bands change their names until they find one that works. Inspiration can hit you like a brain freeze, so you better be ready to take advantage when the right idea comes along.

You wouldn't believe the names of some of the bands that play with Mystik Spiral. I've got no clue how they come up with them. I'd tell you some if I could remember what they are. Actually, I bet you can find posters for their upcoming shows around Davis Square. I think they've got one show a month over the next five months.

Check the map in your Gig Info Sheet for the locations of posters in the area.
