

Doing Laps

Anakin
Skywalker

Present the hazard & password to this (or Frodo's) puzzle at checkpoint 3 for its remaining puzzles.

Since pod races consist of speeding around and around a circular track, Anakin hopes that at least some of the BAPHL racing will consist of doing laps.

In this puzzle, there are Row clues, and Lap clues. Answers to row clues read across. Answers to lap clues are entered clockwise into the rings of the grid in the order listed, but where the first word in each lap begins has not been specified.
