

# ROLL IT!

Dick Dastardly  
& Muttley

Present the hazard & password to this (or Marty's) puzzle at checkpoint 1 for its remaining puzzles.

Dick Dastardly and his nefarious canine Muttley seem to be ready to get things rolling for this race. In fact, you've just seen them rolling three sets of colored dice with letters on them. Since they've already left, rubbing their hands with glee over whatever mayhem they are intending to perpetrate, you've had a chance to take a peek at their score sheet. It looks like this:

BEAR	LUCK	BUCK	NEXT	BEND	PLUG
BEVY	MAZE	DUMB	ONLY	DOZE	POLK
BRED	SURF	EACH	QUAY	FIRM	SMUT
CAKE	THIS	HANG	RAFT	LADY	VERB
FINK	TOMB	HOSE	SEXY	LUNE	WAXY
FORK	WIFE	JUNK	TOUR	MYTH	WOLF
HAGS	WORD	JUST	TRIP	NICK	
JURY	WRAP	MINX	VISA	ORYX	

Closer inspection of the words in each list convinces you that each of the four dice of each color has six different letters on it, and no letter appears on more than one die of a given color. Knowing that, you realize that you likely have enough information to determine which letters are on each of the four dice of each color.

Beneath the list of words, you see the text below. What could it mean?
